HR40041

EL Series Air and Water Hose Reel

The Alemlube EL Series HR40041 air and water hose reel is a quality hose handling, retrieval and storage system with highly flexible and durable PVC hose, crimped hose ends, integral carry handle and detachable mounting bracket enabling 180° hose reel rotation. Manufactured with high density impact resistant and UV stabilised polypropylene covers, the HR40041 features a positive latching system that automatically locks the hose at the desired length and the heavy duty internal spring assembly easily retrieves the hose when partially or fully extended.

Suitable for use in the agricultural, automotive, manufacturing, contractor and transport sectors, the HR40041 air hose reel is ideal for use with drills, impact wrenches, angle grinders, ratchets, tyre gauges and water.

Mountable on the wall or ceiling, the EL Series HR40041 features a constant speed control device ensuring safe and accurate rewinding.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

High quality impact and UV resistant polypropylene covers

Increase safety by reducing rewind speed by up to 80%

Supplied complete with 16m x 12mm ID PVC hose and 0.9m lead in hose

1/2" BSP(T) inlet and outlet threads

High flow swivel and fluid path

Max. Working pressure of 300psi (20bar)

0° to +60°C hose working temperature

Automatic and positive latching system

Hose guide system rewinds the hose without kinks

Constant speed control device ensures safe and accurate rewinding

Detachable steel mounting bracket enables 180° hose reel rotation

Convenient carry handle facilitates portable use

Can be wall or ceiling mounted

Lightweight, compact and durable construction
