INFORMATION

619033 Underground Coal Mining Automatic Shut Off Diesel and AdBlue® Nozzle

September 2023

The Alemlube 619033 Automatic Shut Off Diesel and AdBlue® Nozzle is suitable for the transfer of Diesel and AdBlue®, automatically shuts off to stop dispensing when a tank is full and is ideal for underground coal mining work areas.

Capable of delivering up to 70 litres per minute, the Alemlube 619033 Automatic Shut Off Diesel and AdBlue® Nozzle is manufactured with a stainless steel body and a stainless steel 1" BSP(f) inlet swivel that is encased in a rubber shroud for durability and protection.

The 619033 trigger features a locking device to help protect against accidental diesel and AdBlue® dispensing.
