7520HAS Mobile AdBlue® Storage & Dispensing Kit complete with Rotary Drum Pump

March 2023

The 7520HAS Mobile AdBlue® Storage & Dispensing Kit complete with Rotary Drum Pump is ideal for transporting and dispensing AdBlue® easily and efficiently, directly to the vehicle.

Featuring a unique design with ergonomic grip for ease of handling and lifting, the tank is equipped with solid 8" PU wheels suitable for mobility on any surface.

The 75L tank is manufactured in roto-moulded linear polyethylene, is impact resistant, UV stabilised and fitted with a filling cap complete with an integrated air vent device.

Supplied standard with a manual rotary drum pump, a spout and a 3.7m long PVC delivery hose.

***Please note:** the pump must be thoroughly washed, cleaned & free of AdBlue® internally after each use. AdBlue® when in contact with air will bind the internals and may break the pump, voiding manufacturer and Alemlube warranties.

SPECIFICATIONS, FEATURES AND BENEFITS
