HR90035

Oil, Diesel, Air & Water Spring Rewind Hose Reel

August 2023

The EL Series HR90035 Oil, Diesel, Air and Water Spring Rewind Hose Reel is a low pressure reel supplied standard with 50m rubber hose suitable for diesel transfer and air or water applications in commercial vehicle workshops, food processing, bottling plants, manufacturing facilities, pulp & paper manufacturing, minesite workshops, service vehicles and oil & gas industries.

The hose reel drum is sturdy and practical with stiffening ribs and flanged edges for operator safety. The positive latching mechanism automatically locks the hose assembly at the desired length and the adjustable arms allow for floor, wall or ceiling mounting according to needs.

The EL Series HR90035 Oil, Diesel, Air and Water Spring Rewind Hose Reel from Alemlube will provide you with a reliable & cost effective means of storing and retrieving hose assemblies in your workshop.

SPECIFICATIONS, FEATURES AND BENEFITS

- Reinforced steel frame provides maximum strength & stability
- Maximum working pressure of 300psi (20bar)
- Includes 50m x 12mm ID rubber hose & hose stop
- 1.2m lead in hose supplied standard (not depicted)
- 1.5mm thick robust drum assembly with stiffening ribs & flange edges
- Reliable spring life and positive ratchet lock design ensures a long working life
- Can be mounted on the floor or wall
- Durable long lasting powder coated finish protects against the incidence of rust
- Extends hose life and reduces hose replacement costs
- Improves operator safety
- Improves factory or workshop productivity
